

REROUNDING/POST SQUEEZE-OFF CLAMPS

Designed for rereounding pipes after squeeze off has been applied. The range covers 50-250mm polyethylene pipes.

SPECIFICATIONS

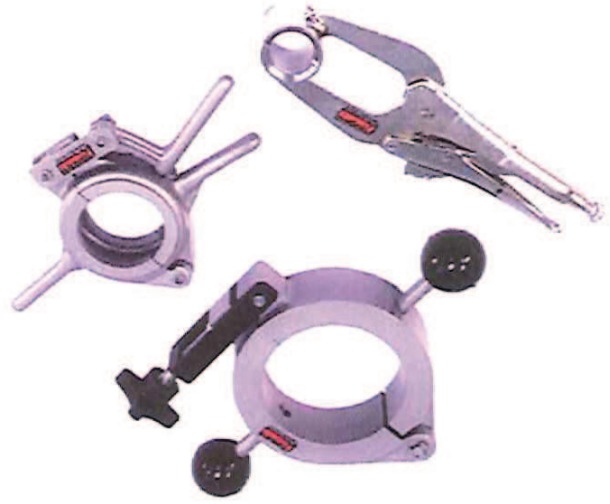

Product Code	Range	Weight
RRC50	50mm	2.9kg
RRC63	63mm	3kg
RRC75	75mm	3.5kg
RRC90	90mm	3.5kg
RRC110	110mm	5.75kg
RRC125	125mm	5.5kg
RRC140	140mm	5.5kg
RRC160	160mm	7.5kg
RRC180	180mm	6.75kg
RRC200	200mm	9.25kg
RRC225	225mm	11.5kg
RRC250	250mm	12kg

- Designed to be left permanently underround if required
- Two separate half shells brought together by extended nuts
- Steel unit
- Diagonal pattern tightening action
- The longer the clamp is left in position the better the rereounding effect
- National Grid approved.

REROUNDING TOOLS

For rereounding polyethylene coiled or oval pipe prior to electrofusion. See table for available size range. National Grid approved.

SPECIFICATIONS

Product Code	Range	Weight
RR16	16mm	0.4kg
RR20	20mm	0.5kg
RR25	25mm	0.5kg
RR32	32mm	0.5kg
RR40	40mm	1.5kg
RR50	50mm	1.25kg
RR55	55mm	1.25kg
RR63	63mm	1.25kg
RR75	75mm	1.5kg
RR90	90mm	1.5kg
RR110	110mm	2.0kg
RR125	125mm	2.0kg
RR160	160mm	2.25kg
RR180	180mm	3.0kg
RR200	200mm	3.0kg
RR225	225mm	3.0kg
RR250	250mm	3.0kg

For a unique rereounding solution see the Powerclamp on Page 42
