

Aladdin A-LITE

About the A-LITE

The Aladdin A-LITE is a high-end variable bi-color on-board LED light with an integrated and easy changeable battery. The light quality of the Aladdin A-LITE is outstanding with CRI and TLCI ratings of over 95 for both tungsten and daylight. The integrated lithium-ion battery has a runtime of 1 hour and 20 minutes at full power and can be charged quickly via the included Micro USB-to-USB cable. This USB cable allows you to power and/or charge the A-LITE from any USB charger, laptop, camera or battery with a USB port.

The A-LITE is the slimmest and lightest on-board light on the market and the housing is made from aircraft-grade aluminum. The light comes with a standard 1/4-20" thread to mount to any on-board adapter. A removable hinged, plastic diffuser is included with the light to soften the light even further. The A-LITE produces a color temperature range from tungsten (2900°K) to daylight (6300°K) and every point in between, and is completely dimmable from 5–100%.

In the box

- 1x A-LITE
- 1x Diffusion filter
- 1x USB cable
